Web Apps / Extensions

Easy Review | Web Application

- ◆ Co-developer for an account verification application. This allows online merchants to verify the identities of customers who may raise risk assessment or fraud warnings.

Easy Rates Japan Post | Shopify Application

- ◆ Lead developer on a Shopify app to easily display rates for all Japan Post shipping methods at checkout. Merchants have the option to offer customers a variety of shipping methods within a few clicks.

Easy Label Japan Post | Shopify Application

- ◆ Lead developer on a Shopify app to easily print Japan Post shipping labels for international customers. Merchants can create labels for every available shipping method.

日本語のShopify | Chrome Extension

- ◆ The Shopify dashboard does not have locale language options, so this extension was created to help Japanese merchants. With over 300 users, it translates all of the important areas and functions for users.
